## **Mastermind Update Template**

Game Changers often solicit the help of others and many of them belong to a mastermind group.

A mastermind is a group of individuals with a shared objective to improve or grow personally or professionally. The group is committed to sharing their knowledge to help each other reach their goals and objectives.

A mastermind group is a great way to help keep you motivated and to hold you accountable. The power or synergy of the mastermind group can accelerate your success.

Your group may choose to meet weekly, bi-weekly or monthly. It is recommended that you don't meet any less frequently than monthly. Mastermind groups that are smaller and more intimate often prove to be the most beneficial.

When selecting your mastermind partners, it is important to select people who have shared interests and goals and have similar values.

You can use the following template to keep track of your mastermind updates.
